INFO

Formed in 2011 SLOPPY JOE'S from Hamburg (Germany) is one of the upcomers in the New Wave Of Classic Rock. Taking influences from legendary acts such as KISS, Guns n' Roses or AC/DC and mixing in the own style – this power trio has a fresh and hard-hitting Rock sound.

Winning over audiences all over Germany and Switzerland on their first tours, the three rockaholics are just getting started: Jesse Garon (Guitar/Vocals), Johnny Angel (Bass) and Pätzy Dävey (Drums) are providing blistering guitariffs, cutting ass bass and heavy drums. The band also gives "rock'n'roll soul" to the past five decades of music by injecting guts and class into previously cheesy pop hits such as: Love really hurts without you (Billy Ocean), Delilah (Tom Jones) or Diana (Paul Anka) with an energetic Rock show live concept.

Since the release of the self-titled SLOPPY JOE'S EP the Band has performed over 100 live concerts in Europe so far.
